ACT OF REMEMBRANCE

“The cemeteries will be permanently constructed and the grounds beautified by the Imperial War Graves Commission and I cannot help wishing that the enclosed photographs of your son’s grave had not been taken until after this work had been completed. I realize that these photographs are not attractive, although the ground is being kept in a neat and orderly condition. All cemeteries will be enclosed by a stone wall and planted with grass, trees and shrubs with flower borders. Permanent headstones will be erected on each grave.”
